Computronics has a variety of flexible LED, LCD and Plasma electronic display solutions for cinemas, including:

- ♦ TEXTLITE Display Systems
- ♦ Multi-Line LED Box Office Displays
- ♦ LED Door Signs
- ♦ Text/Graphic Displays
- ♦ AnimatorPRO - Combines the power of LED with images
- ♦ Programmable LCD/Plasma Screens

Since the evolution of the multi cinema complex, Computronics TEXTLITE electronic display systems have been the industry benchmark.

From the national operators to an increasing list of independents, TEXTLITE is the preferred system every time.

Computronics have software modules to interface with most of the popular ticketing systems with various operating modes.

Computronics has 30 years of experience in electronic signs and displays. Browse the Computronics website for further examples of products and applications or contact us today for a no obligation discussion and quote.

Discover the Power of LED

1. People actually read LED messages; being accustomed to reading LED messages at airports, cinemas, roads and train stations.
2. Clearly visible day or night; legible at greater distance than similar-sized illuminated signs.
3. Change messages, at no charge, whenever required. (Static signs cost money to change.)
4. LEDs are reliable, low maintenance, 'Solid State' devices (not globes) that have a long life span of over 100,000 hours. LEDs run on low voltage and use little power, meaning BIG savings on power bills.

Computronics

Established in 1976, Computronics has progressed to become one of the world leaders in the design and manufacture of LED electronic displays.

- ♦ A public company (ASX-CPS)
- ♦ Inhouse R&D
- ♦ Products built to World's Best Standards
- ♦ Service technicians available nationwide
- ♦ 2 year warranty for parts and service
