

# Astor Theatre LED Multi-Line Displays

## PROJECT DATA SHEET

THE ASTOR THEATRE IN WESTERN AUSTRALIA HAS DISCOVERED THE POWER OF LED WITH THE RECENT INTRODUCTION OF TWO MULTI-LINE LED DISPLAYS.

October 2006

Cinema patrons and passers by are now better informed of what's on at the theatre after the recent installation of two LED multi-line displays - one inside and one outside.

### Outdoor Multi-line Display Key Features:

- ◆ 4 Lines x 40 Characters
- ◆ 100mm Character Height
- ◆ UltraBright Red LEDs
- ◆ Automatic Night Dimming
- ◆ Communication: Wireless connection using Computronics' Multi-line Sign Software

### Indoor Multi-line Display (Tri-colour) Key Features:

- ◆ 4 Lines x 20 Characters
- ◆ 50mm Character Height
- ◆ HighBright Tri-colour LEDs - Red, Green Yellow
- ◆ Communication: Wireless connection using Computronics' Multi-line Sign Software

Both displays are programmed to show movie session times and general messages.

For further information regarding this project contact Computronics on 1300 888 506.
